 Instagram @HawkenFabPlay

The Fab Play Institute is an annual gathering of like-minded educators looking to connect and grow our network, share best practices, hone skillsets, and prototype new ideas. Our conference, located at Hawken School's beautiful campus and Fab Lab just outside Cleveland, Ohio, is open to all educators and administrators in Maker Education. We welcome all levels of experience and provide invaluable resources to teachers designing their curriculum for the first time.

Visit the [Fab Play Institute](http://www.FabPlay.Hawken.edu) website for further details.

Join us this year as we roll up our sleeves and get hands-on!

Celebrate our **5th** year of working and learning together.

Tentative Schedule for the Week.
